Donor's Memorial

A symbolic eternal flame sculpture

In order to recognize those who donate essential items and significant sums to support the Memorial, a substantial monument should be erected. This image suggests the commissioning of a steel sculpture in the image of an eternal flame. The Donor Memorial could be incorporated into the base.

Cemetery Kiosk

There is a desire to recognize and locate those buried in the Pullman Cemetery as well as veterans who may be buried elsewhere in Pullman. This kiosk would serve as the central information point for those visiting this cemetery. The design would compliment the existing gates into the cemetery. A bathroom could be incorporated into this area.
