What to do:

No more than two days before the scheduled collection in your area, please rake leaves into the street next to the curb. To facilitate access for leaf removal equipment please park cars in a legal, off-street parking area during the dates city crews are scheduled for collection in your area. The equipment used to remove leaves are large and include a dump truck and a front end loader, it takes considerable space for them to maneuver in and around to pick up the leaves which is why off street parking is imperative to this process.

What not to do:

Do not bag leaves. Leaves are recycled to be used as mulch and are delivered directly from street pickup to the mulch pile. Bagged leaves will not be collected. Please do not place anything other than leaves in your pile. Piles containing grass clipping, branches or any other debris cannot be collected.
