

News Release

For immediate release: April 1, 2020

Contact: Troy Henderson, Director of Public Health, 509-397-6280 – Bill Tensfeld, Director of Emergency Management, 509-397-5605

Whitman County has received 2 more positive COVID-19 test results which brings the total to 10 within the County. One new positive is a female aged 18-44 and the other is a male aged 18-44. All patients are stable and self-isolating. Age groupings have changed to align with State DOH daily Epidemiology Report. Public Health Department is investigating close contacts of the most recent positive patients.

The Whitman County Health Department regularly updates their Facebook page with helpful information regarding personal protection and the status of county health operations.
